

Girl Scouts and America's ToothFairy®

The ToothFairy Patch Program allows Girl Scouts across each of the six age groups to learn about oral health, become advocates for access to quality dental care, and develop leadership skills. To earn a ToothFairy Patch, a Girl Scout participates in at least one activity from three different leadership categories.

01 Take Action!

- Work with a local dental clinic/dentist office to create a children's oral health awareness advocacy event/day.
- Document your efforts to raise the conversation on oral health disparities for children (i.e., create a video, briefing, etc.)
- Host or participate in a America's ToothFairy Smile Drive

02

Discover!

- Work with a local dental clinic/dentist office to create a children's oral health awareness advocacy event/day.
- Document your efforts to raise the conversation on oral health disparities for children (i.e., create a video, briefing, etc.)
- Host or participate in a America's ToothFairy Smile Drive

03 Connect!

- Using the ToothFairy 101 Community Education Kit, volunteer to teach a lesson on oral health to younger peer audience. Consider a daycare, younger Girl Scout troop or community center
- Visit a local dental professional's practice office and have that dentist speak to your troop about dental health and oral hygiene importance. Have each scout write up a brief summary on what they enjoyed and learned. Share it with us on #MySmileMatters social media or via email to alange@ncohf.org

03

- Interview your parents, school teacher, or adult community leader on some of their own hygiene habits.

Order Patches
