This training teaches adults the skills to earn the Co-op Course facilitator qualification. The Co-op Course facilitator qualification allows you to safely and properly facilitate a co-op course experience. You'll learn about ice-breakers, team-building initiatives, trust, spotting, and the elements of the course as well as how to debrief each experience. Facilitators will also be trained to assess and mitigate risk for participants as well as themselves. Risk Management includes understanding incident and near-miss trends while critically thinking and planning ahead to prevent potentially unsafe situations, both emotional and physical.
